

# South Downs Group Annual General Meeting – 10th November 2009

## Events Co-ordinator's Report

The Group enjoyed good support throughout the year and most events were well attended. We succeeded in the aim to put a good range of TRs on display and in action in the club nights, events, tours and visits in 2009. We also helped plan and run a charity classic car run in aid of St Peter and St James Hospice which was a great success.

I am grateful for the support of all who attended, many of whom assisted in organising the events. It was truly a group effort.

As in previous years, the plan for 2009 was to fully support three main Shows plus the TR Register International Meeting, one main continental tour as well as a range of local runs and social events. This was achieved and some more and my thanks go to all who assisted in the planning and organisation.

The committee is always pleased to receive suggestions for shows, runs and activities for inclusion in the programme, and we will try to make sure that we plan a diverse range of activities which encourage the use of our cars. We aim to locate 2010 events throughout the area covered by SDG. Most of all we aim to increase the already strong social aspect of the Group.
